NH EMS PREPAREDNESS UPDATES

Bill Wood, Preparedness Coordinator
NH Bureau of EMS
603)-271-4615/NH: 1-888-827-5367 X 230
(603)-271-1091 (Fax) or bwood@safety.state.nh.us

November 2004

The items noted below are included as preparedness topics of interest to our EMS providers:

NH INFLUENZA VACCINE UPDATE

The Bureau of EMS is actively monitoring the on-going situation of Chiron influenza vaccine shortage in cooperation with the NH Department of Health & Human Services and the NH Hospital Association.

Based on the October 11th NH DHHS Action Plan, the Bureau endorses the following measures for EMS providers:

Immunization of EMS personnel with limited direct patient contact or those whose contact involves situations where personal protective equipment is worn could be deferred until additional vaccine becomes available.

As of October 14th NH DHHS is investigating the possibility of ordering Flu Mist intranasal spray vaccine for healthcare workers. More information on that option will be distributed as it becomes available.

EMS providers are urged to utilize appropriate respiratory protection equipment including gloves and masks when treating respiratory distress or sick patients

The Bureau's Airborne Pathogens curriculum is an excellent educational program for all emergency services personnel and is available in the "Preparedness" section of the Bureau website at www.state.nh.us/safety/ems. It is also available on CD-ROM.

For additional assistance please contact Bill Wood as noted above.

MASS CASUALTY TRIAGE TAGS AVAILABLE

The Bureau of EMS provides MCI triage tags at no charge to local EMS agencies and currently has a supply of tags available for distribution. The tags are packaged 50 per package and are sequentially numbered.

NH EMS licensing rules require a minimum of 50 tags per ambulance vehicle. Tammy Fortier, Licensing Coordinator, maintains a supply of tags available at the time of ambulance inspections.

Additional supplies of triage tags are available at no charge.
